### Part B

#### **CRITERION I – CURRICULAR ASPECTS**

##### **1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

This Institution is an affiliated college of Lalit Narayan Mithila University. This College follows a pre- determined syllabus set by the parent University. Periodical innovations are made within these established academic structures, committed to providing complete development for its students in all respect. Timetables, workloads and other supporting administrative tasks are prepared well in advance of teaching session and streamlined for Academic processes. At the end of each academic session, Departmental reports are collected, documenting the academic and extracurricular work undertaken by each departments in that year which enables a systematic compilation of response. Extensive support is being provided to our teachers regularly to update their knowledge and continuous growth, through active involvement in Research and Faculty Development Programmes. Technologically enabled infrastructure is ensured for everyone, with special assistance for the students with incapability, which makes it possible for all our students to engage in an appropriate teaching- learning process. This College prioritizes the incorporation of academic and mental health of our students through the mentor- ward system where each student is assigned a faculty mentor for academic and extra-academic guidance. Academic and other discussions are individualized by creating smaller groups of students. Through focused interactions and guidance offered by the teachers, students are able to have their academic and other issues suitably addressed, thus complementing the pursuit of effective curriculum transaction for a strong tutorial and mentor- ward system. Feedback forms are provided through our college website so as to enable the concerned stakeholders to confidentially give the college their evaluations and suggestions for the improvement of College functioning. Incorporation of all these suggestions is ensured in the functioning of the college. The endeavor of this college has always been to raise the consciousness about gender-based inequalities, negligence of environmental concerns and lack of ethics which subsequently allows them to contribute to the society as responsible human beings.

#### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentoring of students is conducted by the departments of the institution. Mentoring of students is based on the following objectives: - To increase the teacher-student contact hours - To identify and address the problems faced by slow learners and first generation learners - To encourage advanced learners - To decrease the student drop-out rates - To prepare students for the competitive world Every year, departments individually organize orientation sessions on the class commencement day for students of first Part and explain the designing and implementation of the mentoring system of the department. Departmental teachers. In the mentoring process, all necessary information related to the student such as the contact number, email of the student, family income, category, gender etc are initially collected by the department through the student database format provided by the IQAC, collected at the time of admission for a new session. Departmental teachers maintain interaction with students through individual meetings, social networking sites and interaction boards of learning management system. Teachers discuss with parents during interactive program and try to identify the problems faced by students and related issues. Teachers suggest students to provide the list of difficult questions and problems faced by them while preparing for competitive examinations and then provide solutions to them. The biggest challenge of the mentoring system is to decrease the drop-out rates of the college due to shifting of students from general courses to technical and medical courses at the beginning of each academic session. College has planned to introduce a mentoring guideline for all departments from the next academic session to address this problem.

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

Best Practice 1. (a) The Title of the Practice: Entrepreneurship Development Initiative. (b). Goal : The aim of this initiative is to promote Entrepreneurship skills among student community and also promote gainful employment opportunities. (c). The Context : Modern day is the day of entrepreneurship. Students after completing their course programmes go in search of employment, but only a few could get employment they prefer or desire. Considering this and keeping in tune with the vision of the Institution, College has devised various Entrepreneurship Development Initiatives so that the students can utilise their talent and skills to make a better living. These students groups from the College level can join together to form their own units and become successful entrepreneurs of tomorrow. (d). The Practice : College has been imparting various programmes for skill development of students. (e). Problems Encountered and Resources required: Funding is a problem for the College. There is time constraint for students to pursue these activities. However faculty and students tries their best to overcome the hurdles and to bring in positive results. Educational institutions can help students develop their skills by merging theory to practice. The students can get a base with the support of faculty and peers. This is to be looked into by the educational institutions. Best Practice 2. (a) The Title of the Practice- Solid Waste Management. (b) Goal : This practice aims to create awareness among general public on the importance of effective solid waste management and encouraging reuse of nonbiodegradable wastes. (c). The Context : Waste Management is widely discussed in the present day. There are several issues related to in effective management of solid wastes. Keeping this mind an effort was taken create an awareness on the issue to prevent adverse impacts on man and other living organisms. Students and staff collected the plastics and other e-wastes from the college campus and houses and handed over it to various agencies for recycling. Training was given to produce decors and other articles of use from discarded plastics. (d). Evidence of Success : The school management and the teachers have reported they have advised the student community to deposit their food waste into the bio-bins and waste food management was thus effectively carried out in especially those schools where space is a limiting factor. The plastic and e-wastes that are quite difficult to be managed were collected and distributed to agencies that deal with e-waste management. The skill enhancement course on plastic reuse has enabled the student community to make beautiful products out of worn out plastics thus promoting plastic recycling. (e). Problems Encountered and Resources required: Though a major share of people were interested in effective solid waste management, there are some who neglect the aftermath of inefficient management practices. Hence, creating awareness to those people was a challenge. The residents of apartments were confused as to how the compost can be used as they have no space to carry out organic farming. Though the initiative is a just a beginning, it can bring in remarkable changes especially in an urban locality. An educational institution with a large number of students can play a significant role in preventing unethical waste disposal strategies.
